Animatic

Project

Part 1

Using the storyboards that you recently created here in class as a starting point, you are going to redraw your pictures in one of two ways:

1. Hand drawn: Using a standard sized sheet of paper, you are going to redraw your pictures by hand.
2. Digitally: Using a computer or online drawing/illustration application, you are going to redraw your pictures digitally. **Note: It must be a <u>drawing</u> application (Paint, Sketch.io, etc.). Work from <u>animating</u> applications such as Animatron will NOT be accepted.**

*Your pictures do not have to be labeled, however, they do need to include arrows to help indicate camera and actor/subject movement.

You must have a minimum of <u>5 pictures.</u> This assignment is <u>**worth 50 points**</u> and is <u>**due Wednesday, November 20th.**</u>

*If your pictures were drawn digitally, you must submit them in a folder with your name to the RHSMAC01 folder.
