

First Semester Final

Animatic

Project

Congratulations! You have made it to the end of first semester. Using skills and techniques that you have learned here in class, you are going to create your own animatic video.

An animatic is a short video comprised of images/drawings that are used to help visualize a movie or scene before it goes into production.

This project will be done in two parts; Part 1 is worth 50 points and will be due Wednesday, November 20th. Part 2 is worth 100 points and will be due Monday, December 9th.
