

STORYBOARD THE CLIP

Using the skills and techniques that you have learned about storyboarding, you are going to choose one of the clips which Mr. T has provided for you and create a storyboard for it.

Remember...

- Every time the shot changes in the clip you must draw a new slide.**
- The shot must be properly labeled (this includes the scene number, shot letter, shot type, camera movement (if any), and any additional notes/descriptions).**

Mr. T will provide you with storyboard worksheets.

This assignment is due at the end of the period on Thursday and is worth 20 points.
